

PPC | material information

PPC

Product full identity:

Polypropylene Copolymer

PPC is a low density material that offers high impact and chemical resistance. PPC also boasts a good operating temperature range and is easily welded, due to this materials versatility it is ideal for a wide range of applications.

Properties

- Excellent impact strength
- Wide temperature range (+80 to -20°C)
- Excellent chemical resistance
- Lightweight and weldable
- Very low moisture absorption
- Food contact approved

Applications

- Chemical tanks
- Protective cladding
- Advertising
- Signage
- Packaging
